The National Council of the Union League.

PHILADELPHIA, Dec. 10.—The national council of the Union League of America held its annual session yesterday. Gen. J. S. Negley, of Pittsburg, was elected president, and the other officers were re-elected. A report on the Indian policy of the government was adopted, strongly advocating the necessity for dissolving the tribal system, and requiring that Indians should be made citizens. Resolutions were adopted congratulating the country on the election of Garfield and Arthur, and pledging support to the new administration. The subject of reorganization of the republican party in the south, by inviting the co-operation of all progressive men, without regard to their past affiliations, was warmly discussed. Speeches were made in favor thereof by Col. J. E. Bryant, of Georgia; Hon. James T. Beach, of Missouri, and Hon. J. D. Brady, of Virginia. Mr. McEnelly, of Pennsylvania, presented a resolution in relation to the duty of the republican party to educate the people in their political duties by means of the newspaper press of the country. The council adjourned to meet in Washington in March next, for the purpose of attending the inauguration of President Garfield in the chair.

The Horse Trade in Cincinnati:

CINCINNATI, Dec. 10.—The horse trade in this market the past year as shown by returns to the superintendent of the chamber of commerce, to be published in the forthcoming report, was the largest ever done here except during the war, when phenominal purchases for the army were made. The actual sales of mules and horses aggregate 28,516. The total receipts for the year were 21,733; shipments 18,137; average price per head for horses and mules sold here, $72:25. The kind in best supply and most largely sought was medium grade horses, ranging from $85 to $110 per head. The demand for eastern and foreign markets were better than any time since the war.

A Mormon Protest.

CINCINNATI, Dec. 10.—Last night during the performance at Pike's opera house, of a play entitled, "One Hundred Wives," a well dressed gentleman excitedly rose in the audience and in a loud voice protested against the further progress of the play on account of its attacks on the Mormon religion. He was so deeply in earnest and became so violent as to attract the attention of the whole house, and Manager Ballenberg was obliged to eject him from the house. He appeared to be sane and in his right mind. He said he was an Englishman, stopping for a time in the city.

Demand for Unpaid Taxes.

INDIANAPOLIS, Ind., Dec. 10.—The state has made a demand upon Marion county for $12,484.52, taxes of 1878, unpaid owing to the shortage of Samuel Hanway, ex-county treasurer, but the county commissioners resisted upon the plea that the county had never received this money, and until the deficiency was made good by Hanway's bondsmen the state had no recourse. The attorney general holds that the county is responsible for its treasurer so far as the state is concerned, and that the money is due. Suit will be brought if the commissioners continue stubborn.

Powder Explosion.

CHICAGO, Dec. 10.—An explosion occurred yesterday afternoon, at the union lime works, on Nineteenth street, which resulted in the death of John Maugh, and the fatal injury of Walter Hall. Both are employes. The explosion occurred in the pump house, where cartridges are made, and was caused by a keg of powder being touched by a spark. The out buildings were shattered, as well as the windows for two blocks around the place.

BLUFFTON.

Grand Wedding—Sad Sickness of Mr. John Welty—Scarcity of Coal—Other News, Etc.

Correspondence of the Sentinel.

BLUFFTON, Dec. 10.—One of the grandest and finest arranged weddings that has ever taken place in our city, was witnessed yesterday evening. The happy couple were Dr. C. T. Melsheimer, of Bluffton, and Mrs. Martha Cartwright, of Allen county. The wedding ceremony was performed by Rev. G. G. Copland and was under the entire supervision of the I. O. O. F. order of this place. The lodge room, where the wedding took place, was handsomely decorated with evergreens, mottoes, etc., and presented a lovely appearance. In the southern part of the room where the couple stood during the ceremony, was erected a large arch with the words "Melsheimer" on one half of the circle and "Cartwright" on the other half in gold letters, and in the center was suspended a beautiful circle of evergreen made to represent a horse shoe. It was very handsome and the ladies who arranged it received much praise. After the ceremony and singing by a musical quartette, led by Prof. Martz and his two accomplished daughters, the guests repaired to the Masonic hall where a grand supper was in waiting, which was heartily relished by about one hundred and seventy persons. Take it all in all it was one of the finest weddings we have ever attended. There were quite a number of Mrs. Cartwright's relatives and friends present from Ossian and Sheldon. She has the reputation of being a very kind and good woman and as the doctor bears the same reputation, the two are well mated. May God spare their lives many years to enjoy each others love and affection.

Mr. John Welty, who cut his shin bone with a hatchet a few days ago, is dangerously sick from the cause of the cut. It appears that the wound had been tied up with a red woolen cloth, which poisoned the blood in his entire system. He is a son-in-law of Mr. George Arnold, and a prominent man in the town. He has the sympathy of our entire people.

Mr. Knapp Bulger, who has been dangerously sick, is slowly recovering and we hope he will soon be on our streets once more.

There will be no preaching in the Presbyterian church Sunday on account of the absence of the pastor.

Coal is very scarce and hard to get.

Mr. O. W. Thomas and Miss Jennie Friedline were married here yesterday evening.

LAGRANGE COUNTY.

Meeting of the Agricultural Society.

Lagrange Standard.

The annual meeting of the LaGrange county agricultural society was held last Saturday. The attendance was not large, but nearly as many as usual. The past year has been an unfavorable one everywhere for agricultural societies, as well as many other societies, the attention of the people being so absorbed with politics. The LaGrange county society deserves credit for succeeding as well as it did under the circumstances. The officers elected for the ensuing year were :

President, John Price; vice president, J. H. Wigton; secretary, John J. Gillet; treasurer, Edward Fobes.

Directors: VanBuren, Peter Mosk; Newbury, F. H. Halbert; Eden, Norman Latta; Clearspring, John Price; Clay, Ira Woodworth; Lima, William Walker; Greenfield, Harlow Hern; Bloomfield, John R. Ford; Johnson, H. L. Taylor; Milford, John Bassett; Springfield, Phineas Huntsman.

Finance committee: Thomas Skeer, J. H. Wigton, and David Vankirk.

A motion to hold a spring fair was voted down. The total debt of the society, Dec. 1, principal and interest, was reported by the treasurer at $1,277.70, an amount less than we thought and a sum that the society can easily carry until it can be liquidated. With good luck this can be wiped out in two or three years.

Death of an Aged Citizen.

DETROIT, Dec. 10.—Gen. James W. Brown, of Tecumseh, this state, died yesterday, aged 87. He was one of three men who located that town in 1824, built the first grist and saw mill in Lowell county, and established the first stage mail route between Detroit and Chicago. During his busy life time he has been regent of the state university, major-general of the state militia, examiner of cadets at West Point, and was a general in the Toledo and Black Hawk wars.

Death of a Good Man.

Political malice has ceased, or pretended to cease, at the portal of the grave of this good old man. Blue Jeans Williams is pretendedly the sincerest mourner over his remains. If men who do this class of infamous detraction have any conscience, it should give them trouble; and if they have any self respect, it is difficult to see how they can help hating themselves as heartily as they are hated and despised by the decent element of the community in which they exist. New lamps, new hand painted china, new cut glass, new gold band china, new decorated tea and dinner sets, new Majolica ware, new plated silver ware, new toilet ware, new compliments of our three jolly dogs, at Ward's new store, on West Columbia street. Ward's cheap crockery store.

Resolved, That it is the duty of the general government to defray the expenses of all quarantine administration of this character. That is, that which extends beyond the boundaries of a single state, and said committee are hereby authorized and instructed to take the necessary steps to secure adequate appropriations by congress for this purpose. The paper was an attack on Surgeon Sterberg, U. S. A., representative of the National Board of Health, disputing the latter's statement, that there has been yellow feaver in New Orleans this fall.

Philp and Brockway.

NEW YORK, Dec. 10.—Kenward Philp, who seems to thoroughly enjoy the notoriety he has achieved in connection with the alleged forgery of the Morey letter, has determined to begin to lecture about it and has engaged the Brooklyn Academy of Music for to-night. He says that his subject will be "Morey Antique."

It is said that an offer has been made to Brockway, the counterfeiter, to also lecture, but he refuses, saying sarcastically that he is going to try to earn an honest living.

HEAVY EXPLOSION

In the Penigrog Colliery, England.

Eighty Men and Eighteen Horses Thought to Be Lost.

First Dispatch.

LONDON, Dec. 10, 3:30 P. M.—An explosion at the Peniquig colliery occurred at forty minutes past 1 o'clock this morning. The shock was so violent it was felt for miles around, and the damage is so great that explorers were not able to descend into the mine for some hours. One shaft is so shattered that there is not the slightest hope of saving any of the eighty men and eighteen horses that are still in the pit. Four have been brought up alive.

Second Dispatch.

CARDIFF, Dec. 10.—A great explosion occured this morning at the Penyquig new colliery, in Rhondda valley. It is believed eighty-seven persons have perished. An exploring party has discovered sixteen corpses. Search is impeded by after damp and debris. The pit is about a mile from the scene of the great explosion in the Dinas collier in the same valley on January 13, 1878, when about sixty persons lost their lives.

Tockstein, the Chester Fiend.

JACKSONVILLE, Ill., Dec. 10—Louis Tockstein, the crazy man who committed the triple murder near Chester, has been placed in Oak Lawn Insane asylum. He says he is thirty years of age, is a Bohemian and belongs to the Catholic church. He made no resistance to the officers or violent demonstrations. At times he denies the murder and again owns to it. He says a light from heaven told him to do it, and that he would do the same thing again under like circumstances. He complains of pain and a whirring sensation in the back of the head.

Opposition to May.

LONDON Dec. 10.—At a special meeting of Fermay branch of the land league yesterday, a resolution was proposed summoning the government to prevent Chief Justice May from trying the traversers. At a meeting of the London committee of the Parnell defense fund, Justin McCarthy presiding, a resolution was adopted that a petition be forwarded to the queen through Mr. Forster, urging that Judge May be not allowed to try the traversers.

All of 'Em Indicted.

RICHMOND, Va., Dec. 10.—The grand jury of the United States circuit court to-day indicted D. B. Foster, James F. Galloway and Samuel Logan, the last named colored, of Machester, Va., judges of election, for refusing the rights of suffrage to voters in the presidential election, who presented themselves to vote, with capitation tax receipts alleged to have been illegally issued from the state auditor's office.

Colored Girl Fatally Burned.

DANVILLE, Va., Dec. 10.—This morning Emma Gerst, a colored girl, aged 12, living near Ringgold, in this county, while getting her father's breakfast had her clothing take fire. In her fright she rushed out and ran to a neighbor's house with her clothing ablaze all over her. She was so severely burned on her back and other parts of her body that she cannot live.

Exiled to Farms.

MONTREAL, Dec. 10.—A number of members of the Jesuit order, expelled from France lately, have arrived here and taken up quarters temporarily with their brethren in this city. The seminary of Culpis has provided a farm of eight hundred acres for these exiles at Oma, and they will go into farming there next spring.

Loss of Records.

CINCINNATI, Dec. 10.—A Times Star special says the court house at Anderson, Indiana, was burned at 3 o'clock this morning, and all the court records destroyed together with the records of the county school superintendent and sheriff. The building is forty years old and very much out of repair, and a two-story brick. The principal loss is that of the records.

Illuminating by Electricity.

CHESTER, Mass., Dec. 10.—Lieutenant Governor Weston has given instructions to Manager Gardner, of the Troy & Greenfield road, to try the experiment of illuminating the Hoosac tunnel by electricity, with a view to having such illumination made permanent should it prove successful.

Fire at Lafayette,

LAFAYETTE, Dec. 10.—A fire broke out in the centre of the principal business block on the south side of the public square. The damage to the building is several hundred dollars; fully insured. M. C. Augh's dry goods store was completely gutted; loss estimated at $5,000. insured for $1,500 with Simpson & Co, Carey & Kile, dry goods, damaged $200, insured for $1,500 in eastern companies. The "Golden Rule" was damaged at least the same amount on stock of dry goods and notions. Gavens' merchant tailoring store was damaged slightly. Medical Men.

WALTON, O., Dec. 10.—At the meeting of the Northwestern Ohio medical association, Dr. Kiner, of Lima, read a paper on "Pyelo-Nephries;" Dr. Madrin, of Beaver Dam, read a paper on "Criminal Abortion;" Dr. Callahan, of Toledo, read a paper on "Obstetrical Notes;" Dr. Small, veterinary surgeon, of Lima, read a paper on "Epizootic." Several other volunteer papers were read. Most of the above papers were vigorously and strictly discussed There was an average attendance of the members of the association and all felt that the time had been well spent. A large amount of business was disposed of incidental to the organization. The association adjourned to meet in Toledo in June, 1881.

ADDITIONAL CITY NEWS.

A runaway occurred on West Berry street last evening, in which a man and boy were slightly shaken up and the vehicle damaged.

The ball of the City band takes place on the 27th inst., at Arion hall. Reineke's orchestra of sixteen pieces will furnish the music. This will be one of the finest balls of the season.

Dr. Charles Orvis, formerly of this city, died at his residence at Wallin to-day of typhoid pneumonia. Dr. Orvis was well known and very popular in this place and his many friends will regret to learn of his decease.

Mrs. De Vers, as *Irene*, in Butterfield's sparkling little operetta, last evening, was charming. She received a beautiful basket of natural flowers at the conclusion of her solo in the first act. It was a graceful tribute to a deserving artist.

The order of the Eastern Star, F. & A. M., held a pleasant meeting at the residence of J. E. Graham, esq., last night, and the happy six furnished the music. Mart Connett took his seat in a large arm-chair, and nothing could induce him to vacate it—not even a fine lunch or a good looking girl.

The drawing for the beautiful, large doll and the hobby horse, will take place on the 31st of this month. Every one purchasing $1.00 worth of goods at this place is entitled to a ticket in the drawing, and all stand an equal chance to get either one or the other of the prizes. Do not delay but go at once to Chaska's, and secure your ticket, as either one of the prizes would make a splendid gift to yourself or children. dec8tf

The certificate, therefore, will not be given for either, leaving the settlement of the matter to the legislature. The democrats will still have a majority of three on joint ballot.

THE Toledo papers are describing the new Fontaine engine, which arrived in that city the other day. The engine attracts even greater attention there than it did in Fort Wayne, where it was set up.

DOES sensationalism in the pulpit pay? Talmage's congregation are beginning to understand that it does not. Four month's arrears of salary are due Talmage, $9,000 notes are falling due, and there is but $50 in the treasury.

THE war over post-masterships has extended to Columbia City, and the Post believes that twelve years of official place is enough for one man. That's true, but this government is a good deal like an agricultural show—the biggest hog takes the premium.

THE author of "Andersonville" knows how it is to write a book, and advises Grant to write his memoirs claiming this would be the greatest sensation of his life. Grant should do this by all means, first giving them publicity through the columns of the Toledo Blade, which paper suggests the matter.

THE New York Sun, in speaking of General Hazen, the newly appointed chief of the signal service, says the senate should not confirm him. Gen. Hazen is not a fit man for preferment. Stains were left upon his professional reputation by the Stanley court martial. He ought to think himself lucky to stay where he is.

AN effort is being made in Terre Haute to close the saloons on Sunday, and it is gratifying to note that the movement is favorably received. If proper means and penalties for the enforcement of the ordinances were at hand, there is little doubt that Terre Haute would soon experience a different sort of Sabbath from what she does now. Let the good work go on.

FOR the benefit of our Huntington readers, we reproduce this from the Democrat of that place:

Mr. E. A. K. Hackett, of THE FT. WAYNE SENTINEL, was in the city in the interest of his paper last Tuesday evening. He has now made arrangements with W. R. Ream, the newsdealer, whereby THE SENTINEL will be delivered regularly each evening in this city. Under the present management it is a good paper and should have a large circulation in the city.

And it might be added that THE SENTINEL, at ten cents a week, is the cheapest paper in the state. Arrangements are being made whereby we shall print a letter from Huntington daily, and no pains will be spared to make THE SENTINEL interesting to all.

AN exchange says the spiritualists have secured the ghost of the late Samuel Bowles, editor and proprietor of the Springfield (Mass.) Republican, and are making it play the fool. The first part of this assertion may be true, but nothing about Samuel Bowles could ever play the fool. Many a young journalist, graduate of the Republican office, will read with regret this careless handling of his old employer's name, and will stamp it as the act of a brainless and a cowardly nimcompoop.

FROM WASHINGTON.

Balm for the Bruised—Money the Reward of Patriotism—Game for Stalwart Appetites.

Correspondence of The Sentinel.

WASHINGTON, Dec. 7.—The offices at the disposal of congress are always sought after greedily. This is owing to the fact, primarily, that salaries are comparatively high, and secondly, that while the pay covers the entire year, the employe has, on an average, six months' leave of absence. There are many fat places to be obtained when the republicans succeed to the control of the house of representatives, and it will no doubt be interesting to know the amount of compensation that attaches to each. The Post, therefore, very kindly affords to seekers after positions a list of the bonanzas in store for them, which they can select at their leisure and "go for" when the republicans enter upon their kingdom.

The elective officers of the house are a clerk, salary $4,500, with an additional $600, to be disbursed for the hire of horses and wagons. The next is the office of Sergeant-at-arms, salary $4,000. He, too, is allowed an additional $500 for a horse and wagon. The bookkeeper receives $2,500, and the postmaster $2,500, and the chaplain $900.

THE APPOINTED OFFICERS

and their pay are as follows: Chief clerk, $3,000; journal clerk, $3,000; two reading clerks, $3,000 each; tally clerks, $3,000; printing and bill clerk, $2,500; disbursing clerk, $2,250; file clerk, $2,250; enrolling clerk, $2,250; assistant disbursing clerk, $2,000; assistant enrolling clerk, $2,000; resolution and petition clerk, $2,000; newspaper clerk, $2,000; superintendent of document room, $2,000; index clerk, $2,000; librarian of house, $2,000; distributing clerk, $1,800; stationery clerk, $1,800; document clerk, $1,440; upholsterer, $1,440; locksmith, $1,440; two assistant librarians, $1,440 each; bookkeeper and four clerks, $1,600 each. All the above named officers are appointed by the clerk.

In the sergant at arms' office there are a clerk, salary $2,100; paying teller, $2,000; messenger, $1,200; a page at $60 a month, and a laborer at $660 a year.

In the doorkeeper's department are an assistant doorkeeper, $2,000; clerk, $1,200; janitor, $1,200; chief engineer, $1,700; two assistant engineers, $1,200 each; five firemen, $900 each; electrician, $1,150; superintendent of folding room, $2,000; clerk in folding-room, $1,800; two clerks in folding-room, $1,200 each; superintendent of document-room, $2,000; chief assistatant in document room, $2,000; document file clerk, $1,400; fourteen messengers on soldiers' roll at $1,200 each; eight messengers at $1,200 each; ten messengers at $1,000 each, and a number of laborers at $750 each.

IN THE POSTOFFICE

there is an assistant postmaster at $2,000, eight messengers at $1,200 each, and four messengers to hold during the session at $800 each.

Besides the above the speaker appoints his private secretary at $1,800, and two clerks, one at $1,600 and the other at $1,400.

There are in addition to officers here enumerated a large number of committee clerkships, all with good pay. These officials are sometimes elected by the committees respectively, but are more frequently appointed by the chairman. The clerks to the committees of ways and means and appropriations get each $2,500; the assistant clerk of the ways and means committee gets $1,200, and the assistant clerk of appropriations $1,600. Each of these committees has also a messenger at $1,000. The clerks to the committees on Judiciary, Claims, Public Lands, War claims, Invalid pensions, District of Columbia, and Commerce receive $2,000 each. An assistant clerk to the War Claims Committee is paid $1,600.

There are, besides, thirty-two clerks to other committees, who receive each $6 per day during the session of congress.

There is a foreman in the folding room at $1,500, a messenger at $1,200, a folder in the sealing room at $1,200, a page at $500, ten folders at $900 each, five folders at $840 each, and fifteen folders at $720 each.

There will be some changes in the capitol police force. When the senate was republican and the house democratic the appointments were divided between the two houses. When both bodies became democratic all the appointees on the force were democrats. Now that the republicans succeed to the control of the house again, they will, no doubt, demand their half again.

It will thus be observed that there is plenty of patronage in the house, but the officers will hardly be numerous enough to go around. Republicans are all patriots, but the larger part of them are constitutionally hungry.

CURRENT OPINION.

Columbia City Post: It isn't at all probable that a party which polled a plurality of the vote cast for president is going to disband just because some opponent says so. The fact is becoming more apparent every day that upon a clean-cut issue of Jeffersonian principles of opposition to the office-holding ring, the bank ring, the tariff ring, the railroad ring, the centralizationists ring, and all those class interests who flourish by radical legislation, that the democracy would succeed. Make the fight one of principle and not one for spoils.

New York Express: Mr. Hayes has shown a chronic inability to deal with public affairs with the ability and comprehensiveness of a statesman. His message is chiefly padding, and third-rate padding at that.

Fire in Springfield, Mass.

SPRINGFIELD, Mass., Dec. 9.—The most disastrous fire which has occurred in this city for a long time occurred this morning on Taylor street in part of a small manufacturing business of the city. The fire was in a large block owned by the Wason manufacturing company, which furnishes steam power to a large number of manufactories. The first alarm was given at 1 o'clock and after working hard until 5:30 the fire was pronounced out. It broke out again soon after the firemen left, and the damage done by the second fire was larger than the first. The losses are estimated at $100,000, distributed among a number of firms, most of whom are insured. The chief engineer and several firemen were injured more or less severely.

Diphtheria and Scarlatina.

NEW YORK, Dec. 9.—There is a continued spread of the disease of diphtheria and scarlatina in this and the neighboring cities, and the efforts of physicians and the health boards do not seem to check it. The death rate from diphtheria alone now exceeds that from consumption, which ordinarily leads the list. Parents express great alarm. The theory that sewer gas alone is productive of the disease has been abandoned by the most intelligent physicians who say that the disease is epidemic and that its origin is "in the air."

The Fisheries.

ST. JOHNS, Dec. 9.—Much dissatisfaction is felt in consequence of the British government expressing willingness to pay the American claim for alleged losses by the Bay of Fortune outrage. The local legislature is strongly opposed to the payment. The schooner Emma, hence to Green Bay, with a general cargo is reported lost with all her crew.

FRIDAY, DECEMBER 10.

THE FARM.

[There are many farmers and farmers' wives, who read THE SENTINEL, who are possessed of many facts, the telling of which would benefit the great farming community of Indiana, and an invitation is cordially extended for all to contribute to the columns of our agricultural department.]

Storing Vegetables.

A correspondent of the Country Gentleman has this to say on the subject:

Provident farmers have at this season an abundance of vegetables to supply their tables during the winter.—In our latitude these vegetables are usually stored away in November, and it frequently becomes a question how and where to store them so that they may be conveniently accessible at all times. It often happens that the vegetables intended for consumption and occasional sale are piled into the cellar of the dwelling house and left till disposed of. Such is a very imprudent way, to say the least. Green vegetables stored in piles away sweat, often decay and give off gases and orders which find their way, through cracks and crevices, into the rooms above, making them unpleasant and unhealthy. Where quantities of vegetables are stored, the cellar should be thoroughly ventilated at all times. An opening into the chimney flue, properly constructed, will draw off very largely these offensive odors.

It is a fact, of which many intelligent persons are not aware, that most vegetables will keep better when pitted or covered out-of-doors than when kept in warm cellars. Market gardeners practice making large stores of vegetables which they can draw from during the winter. From this others may learn from a little extra labor, either in putting them in or taking them out, they will find it for their interest to pursue some similar course.

At the opportune time to cover cabbages for winter use, pull and assort the cabbages, throwing the large and small ones into different piles. Take them to a dry, well drained spot, where no water will be likely to stand, on the surface, throw out trenches with a plow, and into these trenches place the cabbages, heads down, close together, the large in one trench and small in another. When the trench is thus filled, throw the earth loosely over the heads, leaving only the roots and a part of the stalk exposed. Two or three inches of earth are sufficient to protect the heads from frost. A covering of loose stalks or straw, protected with boards or rails, will enable one to get them out at any time during winter.

How to Keep Ice.

We have frequently urged upon our readers, those who make butter for sale, particularly, the importance of having a supply of ice. It is generally regarded as involving too much expense and trouble for farmers to think of storing the article, but the experience of a correspondent of the New York Tribune shows that the objection is not well founded. The gentleman referred to tells how he was led to store his summer supply of ice successfully, without an ice house, after paying dearly in disappointment, loss of ice, and loss of money, through having "too much ice house." He was convinced of his error by the circumstance that the more pains he took with his ice house the more rapidly the ice melted, while a neighbor who had no ice house at all always had plenty of ice. The practice of the latter was simply to pack his ice in a square body under a cowshed having a northern exposure, the first layer of ice being raised above the ground so as to secure good drainage, and the whole covered thickly with sawdust. Boards set on ends around the ice pile served to keep the sawdust in place. The gentleman referred to says: "A pile of ice six feet high, eight feet wide, and eight feet long will make 384 cubic feet. And this is enough for the table and to cool the cream, etc. Six teamloads will fill an ice house which contains 400 cubic feet. The blocks should be cut as smooth as possible and square, as they will fit closely, and the ice must be chopped up fine and crowded in between the pieces as to make a solid mass. The closer the ice is packed, and the more solid the mass is united together, the better it will keep. When an ice-house is too close, there is a great deal of condensation, which makes the whole contents wet and dripping, and causes the ice to melt rapidly. The air must be kept as dry as possible, one secret of keeping ice being plenty of ventilation. The more ice there is in a pile the better it will keep. A small quantity must be covered deeper and thicker than a large mass. A large mass will almost keep itself. It does not require the protection of sawdust, but straw or a double wall of boards will be ample. It will more than pay for use in the dairy, and then for the family it is a luxury every provident man should supply.

Sheep as An Improvement.

That sheep can save poor farms from utter ruin, and improve the condition of good farms, is beyond doubt. However much we may prize the horse and cow for valuable services to mankind, still we must admit that the keeping of sheep is very profitable to the farmer, in that it brings money to his pocket and improves the condition of his land. Experience has shown that sheep husbandry is directly profitable. There are no losses and very few risks to meet with in the business. Early lambs, fat wethers, wool and pelts always bring good prices and find ready market. Beside sheep bring up the condition of the farm, and as the old adage has it, "turns the earth to gold wherever their footprints are found." Nothing will improve a farm so well as a course of husbandry in sheep, well selected and judiciously followed. Sheep can be made the salvation of a poor farm, and if more of our farmers would keep more sheep, a larger share of prosperity would be the result.—Ex.

Stay on the Farm.

The Practical Farmer relates an instance of a nice boy in the country, who having come in possession of a few thousand dollars, visited an uncle in the city, an old merchant, to get his advice about investing his capital in business. "I have been in business nearly forty years, and have accumulated a fortune, but it has been done at fearful risks, heavy responsibility, constant toil, and worrying anxieties. A dozen times I have been on the verge of bankruptcy, and twice I have been sorely tempted to take my own life. Of ten men who commenced business when I did, only one besides myself has succeeded, some dragging families to poverty and disgrace. Go back to the farm, young man, said the merchant "and invest your money in land and settle down on it and do a safe business. Take my advice and keep away from the city and its delusive avenues. Quiet and content on a moderate competency in the country is the best fortune I could wish you."

CONGRESSIONAL.

Continuation of Yesterday's Proceedings.

SENATE.

WASHINGTON, D. C., Dec. 9.—The bill for the sale of the remainder of the reservation of the Otoe and other Indian tribes in Kansas and Nebraska, was discussed.

On motion of Mr. Plumb, the senate bill to extend the time for filing claims for horses and equipments lost by officers and enlisted men in the service of the United States was taken up, but without action.

The senate went into executive session and soon after adjourned.

HOUSE.

Debate on counting the electoral vote ensued, pending which the house adjourned.

GARFIELD'S DISTRICT.

Hurd's Objection to Taylor.

WASHINGTON, Dec. 9. In explanation of his objection to the qualification of Taylor as representative from Garfield's district, Mr. Frank Hurd, the chief objector, says that "about three years ago the democratic legislature created the nineteenth congressional district, which was represented by Garfield from the counties of Ashtabula, Lake, Geanga, Trumbull and Mahoning. The law creating the district was repealed by the republican legislature last winter, and the old nineteenth district ceased to exist. A new district was created, composed of all the counties which were formerly comprised in the district except Mahoning. Portage county was included in the old Nineteenth district. There is no law recognizing the existence of said district," says Hurd, "and Taylor cannot represent something which has no legal existence. I do not know how the people residing in the country above mentioned can be lawfully represented in congress until after the 4th of March. I suppose the Ohio legislature will take some action in the premises this winter."

French Officers.

PARIS, Dec. 9.—The senatorial committee of the magistracy bill has elected Jules Simon chairman. There is a possibility of a compromise in regard to the bill, which may induce the senate to pass it.

THE AGED.—Mental and physical debility of the aged begins with loss of appetite and sleep. These two potent causes of premature and rapid decline have their origin in DEFECTIVE NUTRITION and IMPOVERISHED BLOOD. All other ailments may be warded off if these be restored to a condition of health. To accomplish this beneficent purpose, MALT BITTERS are superior to all other forms of malt and medicine. They are rich in bone and fat producing materials. They vitalize with new life the process of digestion. They dissolve and assimilate every article of food, thereby enriching and strengthening the blood. They feed the brain as well as the blood, banishing nervousness, melancholy and sleeplessness. For every form of debility of both mind and body of the aged, MALT BITTERS are the purest and safest restorative in medicine.

MALT BITTERS are prepared without fermentation, from Canadian BARLEY MALT and HOPS, and are free from the objections urged against malt liquors.

Ask for MALT BITTERS prepared by the MALT BITTERS COMPANY, and see that every bottle bears the TRADE MARK LABEL, duly signed and enclosed in wave lines as seen in cut.

The first annual hop of the H. A. K. T. W. H. M. S. D's will be given at Professor Mahler's dancing academy Thursday evening, December 23, promises to be one of the most enjoyable affairs of the season, to those who may be fortunate enough to participate in it.

With the failure to secure certain results, when measure after measure has been tried, then the "last resort" comes into service and produces the effects desired, as in the following case mentioned to us by J. Wilson, esq., of L. M. Ham & Co., manufacturers of bank vaults and steel chests, 158 Portland street, Boston, Mass: For two years my mother-in-law suffered with rheumatism and tried various remedies without relief. She finally determined to use St. Jacobs Oil, and with the application of the remedy was immediately relieved.

Put Them Down.

That crime is becoming rampart in our city and that brothels are in full blast under the very noses of our city officials is evident from the fact that a place like Lafayette hall is allowed to flourish and furnish material to keep the halls of justice in full blast all the time. Nearly every case that comes before the mayor, unless it is a plain drunk and disorderly, is traced back to the precincts of Lafayette hall, where bad men and worse women congregate and make night hideous with their revelry. Why not clean the place out and prosecute the man who leases the building to these infernal hags who are dragging our young men down to ruin? An arrest, a small fine in the police court and a full report in the daily papers but serves as an advertisement and helps lure the victim to the den of these wretches. How many young men of our city can to-day trace back their first step from the paths of virtue and rectitude to their first attendance on some dance given at the above named place or their first visit to this blot on the fair name of our city. Let some action be taken in this matter and many a heart-broken mother will feel thankful to those in authority for thus placing temptation beyond the reach of those who may not be strong enough to resist.

In this connection we will append the action of the grand jury in their report thus far: four indictments for selling liquor to minors and on Sunday, two for gambling, one against Thomas Pruens and John O'Brien for grand larceny and receiving stolen property; one against Thomas Pruens and John O'Brien for petit larceny and receiving stolen property; two against Michael Hanly for petit larceny and receiving stolen property; two for disturbing lawful meetings; one against George Rupel for petit larceny; making thirteen cases in all reported on thus far. The grand jury will make a final report to-morrow morning when more indictments will be returned.

POLICE COURT.

DRUNK.

John James is a laboring man, and worked in the village of Bluffton until he sawed all the wood, did all the railroad work, etc., to be accomplished there for the next year, and then concluded to migrate to the neighboring town of Warsaw, where he heard work was plenty and free lunches grew on every bush. John seems to have forgotten the points of the compass and wandered around the city, until, fired with benzine and glory, he fell a victim to the clutches of the law, and Deputy Marshal Falker at the same time. He is a small man, with one of those beseeching voices that would melt the heart of any organ grinder and cause the monkey to shed tears, and as he lifted his heavenly face toward his honor, the fumes of rot-gut and tobacco seemed to pervade the air, but his melifluous voice caused the boys assembled in the lobby to pull forth their handkerchiefs and blow their noses in such perfect unison that it would have shamed a Pinafore company. His honor, after scanning the crowd, to see that there was no "taffy" in their actions, seized his pen and, opposite the name of John, wrote— fine, $7; ten days in the crackery, but judgment suspended if the prisoner would leave the town on the first train—or watch his opportunity and walk out. John walked.

SOME OTHERS.

Maud and Georgia Warner, the names of the fair beer slingers, of Barr street fame, were next called, and Deputy Falkner, with the dexterity of one who has been accustomed to that kind of business, placed a lady's gold watch before the mayor as a forfeiture of bail for the aforesaid damsels, whose fines amounted to $20 70 each. This is part of the same crowd noticed in yesterday's SENTINEL, who proposed to give free baths of beer to any one who did not like their style.

The young men connected with the affair mentioned above were called, and pleaded guilty to the charge of associating with prostitutes, and not a blush mantled the cheeks of either one as they told their story of sleigh riding around the city with such companions, but with the look of those hardened in crime, they sat and gazed at the people congregated to hear the trial. The mayor fined them $16.90 each, and they went in search of the wherewithal to liquidate their indebtedness to the city. Mr. Leifel will undoubtedly institute civil proceedings for the damage done his property before one of the justices of the peace to-day, and the young men may find that it requires money to go on a grand jamboree.

HE HAD NO BUSINESS

to interfere in the matter, is the opinion of all who know the details of the fact that Officer John Tremmel tried to persuade Mr. Leifel to forgoe prosecution in the case on the promise of the party to replace the windows broken in his saloon. In the account in THE SENTINEL of yesterday the statement was made that a patrolman had taken upon himself the duty of settling the difficulty on Barr street night before last, and, now not to cast suspicion on the members of the police force who know and perform their duty, we simply wish to say that the policeman referred to was

JOHN TREMMEL,

of the Seventh ward, and that he took upon himself the duties of the mayor of the city or his chief when he told the boys that it would be all right if they would fix things up and they could go in peace. He even took one of the prisoners back to the saloon, and thus got the proprietor to say he would not prosecute if they would put new glass in the broken windows, and then so reported to the lieutenant of the police that no complaint would be entered and the culprits were set free. This is subornation of crime and the probabilities are that Mr. Tremmel has not heard the last of his indiscreet action in this matter. A man on the police force should have some business capacity and judgment that he may exercise discretion in any case of arrest he may be called upon to make, and should know that it is his duty to arrest and confine any violater of the law, but not to release him. When the ordinances of the city or the laws of the state are violated and the culprit is arrested by an officer of the city or county he is a criminal and liable to be incarcerated until the higher authorities give him liberty either on bail or on evidence that he is innocent, and no officer whose duty it is to make an arrest has the power to arrest and release at his pleasure, and a lesson should be taught the offending officer that may show him how to do his duty in the future.

Scenes at Sam's.

Santa Claus has evidently made Chaska's his headquarters this time, judging from the tremendous piles of goods that now fill every available space in the cosy little store. There are goods for everybody, great and small, rich and poor, and the sooner you go and purchase the better bargains you can secure. And amid the hurry and rush, don't forget the grand drawing that is to take place on the 1st. This will be by far the greatest that will have occurred in this city for some time. The prizes are very valuable and this makes the drawing all the more interesting. Don't forget to call and purchase something of Chaska at once. Remember the purchaser of every dollar's worth of goods is entitled to a chance in the drawing.

What an Accident Did.

MAYER'S MUSEUM.

The Place to Buy Your Holiday Presents.

A Rare Collection of Art.

As the holidays approach persons on the look out for presents throng the notion and fancy goods stores. Although the articles in these stores make very appropriate presents, yet those whose taste lies in the direction of something artistic and beautiful will go elsewhere. Those who love art, and those who do not, should visit Jos. M. Mayer's art emporium, 142 Calhoun street, where you can find the rarest works of art and feast your eyes on something divinely beautiful. Mr. Mayer is sole agent in this city for the celebrated West Composition Statuary, which has found such universal favor among the art-loving classes of the east, and which is rapidly coming into notice throughout the west. The stock of this class of goods now being carried by Mr. Mayer is by far the most complete ever brought to this city, and we would advise no one to purchase a present until they have reviewed the stock. Besides this he carries a very large stock of the finest picture frames, Pier and mantel mirrors, and a number of engravings by the greatest artists. Christmas cards, he will make a specialty of during the season, and in order to supply the demand he has made extra provision. On the whole, there is not a place in the city were a more suitable holiday present can be procured than at Joseph M. Mayer's. If you would save money, buy of him.

AMUSEMENTS.

THE WIDOW GLASS.

The lower portion of the Grand opera house was well filled last night with a fashionable audience to hear the first rendition of Mr. J. A. Butterfield's comedy opera, "The Widow Glass." While there is much to commend in the production of the piece there are some points which might meet with a just and severe criticism in the attitudes assumed by some of the principal characters and the forwardness of some members of the chorus. On the whole it is a very pleasing little opera and the characters are well assumed for amateurs and especially for a first appearance the entire programme was well carried out. The chorus is good and is harmoniously rendered by a large retinue of singers both male and female. Mrs. De Vers, Miss Jennie Welch and Mrs. Frank M. Brewer are good in their parts, but Mrs. De Vers appeared to be the star of the evening and she indeed possesses a sweet soprano voice which she used to good advantage last evening. Messrs Jacobs, Stabler, Kinsey and Smyser are good in their characters but a little more affection in some of the love scenes would please the audience, for there is a feeling in the breast of every male biped that a lover should be sweet and impassioned on the stage when he has as fair a lady for an opposite as the one of last evening. The public expressed themselves as well pleased as they started for home last evening and no doubt a full house will greet the company this evening.
